

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mark Metzner
DOCKET NO.: 04-24956.001-R-1
PARCEL NO.: 05-06-404-062-0000

The parties of record before the Property Tax Appeal Board are Mark Metzner, the appellant, by attorney Mitchell L. Klein of Schiller, Klein & McElroy, P.C., Chicago, and the Cook County Board of Review.

The subject property consists of a 19-year-old, one-story, single-family dwelling of frame construction containing 3,564 square feet of living area and located in New Trier Township, Cook County. Features of the home include three full bathrooms, two half-baths, a partial-unfinished basement, a fireplace and a two and one-half car attached garage.

The appellant, through counsel, submitted evidence before the Property Tax Appeal Board arguing unequal treatment in the assessment process of the improvement as the basis of the appeal. In support of this claim, the appellant submitted assessment data and descriptive information on three properties suggested as comparable to the subject. The appellant also submitted a one-page brief, photographs and property characteristic printouts for the subject and the suggested comparables as well as a copy of the board of review's decision. Based on the appellant's documents, the three suggested comparables consist of one-story, single-family dwellings of frame and masonry construction located within the same survey block as the subject. The improvements range in size from 2,940 to 3,681 square feet of living area and range in age from 45 to 53 years. The comparables contain two and one-half or four and one-half bathrooms, a partial-unfinished basement, air-conditioning, one or two fireplaces and a multi-car garage. The improvement assessments range from \$53,865 to \$87,392 or from \$17.74 to \$23.74 per square foot of living area.

(Continued on Next Page)

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 82,612
IMPR.: \$ 142,560
TOTAL: \$ 225,172

Subject only to the State multiplier as applicable.

PTAB/rfd5540

Based on the evidence submitted, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's total assessment of \$225,172. The subject's improvement assessment is \$142,560 or \$40.00 per square foot of living area. In support of the assessment the board submitted property characteristic printouts and descriptive data on three properties suggested as comparable to the subject. The suggested comparables are improved with one-story, single-family dwellings of stucco, frame or frame and masonry construction with the same neighborhood code as the subject. The improvements range in size from 2,268 to 4,880 square feet of living area and range in age from 29 to 47 years. The comparables contain from three to four and one-half bathrooms, a partial-finished or unfinished basement, air-conditioning, one or two fireplaces and a one-car or multi-car garage. The improvement assessments range from \$106,436 to \$195,200 or from \$40.00 to \$46.93 per square foot of living area. Based on the evidence presented, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review V. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties submitted a total of six properties somewhat similar to the subject but with many variations in living area and/or age. These six properties have improvement assessments ranging from \$17.74 to \$46.93 per square foot of living area. The subject's per square foot improvement assessment of \$40.00 falls within the range established by these properties. However, along with other differences, the Board finds the six suggested comparables to be inferior overall to the subject in age in that they range from 29 to 53 years, whereas, the subject is only 19 years old. In addition, three of the suggested comparables differ from the subject in size. After considering adjustments for age and size, as well as other differences in both parties' suggested comparables when compared to the subject, the Board finds the subject's per square foot improvement assessment is supported by the properties contained in the record.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has failed to adequately demonstrate that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
